Hello Dingo Veterans of Post 234 of the American Legion. Drake Daggitt here. I'm sorry I've never made a meeting but here are my dues, a bit late however. This old photo is of my grandmothers brother. His name is David Bradley. He died in France in WWI. I don't know how he died but it seems I've heard he died of the Spanish Flu. I believe he died in 1917 but again I'm not sure. Maybe some of you remember the old V.F.W. post building on the corner of 116 across the road from the old Kitchen's gas and repair shop. It was named the David Bradley Post. Now its long gone. The most valuable thing I own is his hunting licence from 1910. My grandmother died in 1953. Please be careful with this photo as it is well over 100 years. Post 234 may assume ownership of it. I hope you can read my penmanship. Its bad but they dont teach cursive any more for some reason. How are todays youth able to read the Declaration of Independence? Good luck to you all in the future and with all you do as a Post Together.

ALL THE WAY

Drake Daggitt
